"Hot Off the Press: Updates on the Newly Released AJCC Staging Criteria and WHO Tumor Classifications — What You Need to Know"

Susan Muller, DMD, MS
Atlanta Oral Pathology
Professor Emeritus
Emory University School of Medicine
Atlanta, GA

"Cross-sectional Imaging of the Oral Cavity & Beyond: Practical Applications for the OMFS"

Ashley Aiken, MD
Associate Professor of Radiology and Imaging Sciences
Emory University
Atlanta, GA

"CBCT in OMS: Join the Revolution!"

Dania Tamimi, BDS, DMSc
Oral Radiologist
Director of Education
Institute of Advanced Maxillofacial Imaging
Orlando, FL

Cindy E. White RN, MSN, CCRN
Health Education Consultants
Atlanta, GA

ACLS Course

Honoring Dr. Roger Meyer with the John Freihaut Lifetime Achievement Award

GSOMS Annual Meeting
Saturday, Feb. 18, 2017
Druid Hills Golf Club
Atlanta, GA
"Hot Off the Press: Updates on the Newly Released AJCC Staging Criteria and WHO Tumor Classifications – What You Need to Know"

The 8th edition of the AJCC Cancer Staging Manual was released in late 2016 and includes changes to how oral cancer is staged. Depth of invasion is now important criteria in determining T category. Changes in the reporting of oropharyngeal squamous cell carcinomas include separate N staging approaches for HPV-related and HPV-unrelated cancers. These and other changes important to oral and maxillofacial surgeons will be discussed. In the past month, the newest edition of the World Health Organization Classification of Head and Neck Tumours has been published. Many changes and updates have been made in both the odontogenic and salivary gland chapters. Ameloblastoma has undergone modifications in terminology and classification along with a review of the molecular pathways. Some of the other changes including newly described salivary gland entities will be discussed.

Attendees will learn:
- To identify the key measure in oral cavity cancer staging.
- To recognize the new WHO classifications for developing differential diagnoses and establishing treatment planning.

Susan Muller, DMD, MS
Atlanta Oral Pathology
Professor Emeritus
Emory University School of Medicine
Atlanta, GA

Dr. Muller is a graduate of Medical University of South Carolina School of Dental Medicine. Dr. Muller completed her Oral and Maxillofacial Pathology training at Emory University, and a Head & Neck Pathology fellowship at the University of Pittsburgh. Dr. Muller is a retired Professor in the Department of Pathology, Department of Otolaryngology Head and Neck Surgery, and the Winship Cancer Institute. She has lectured extensively on Oral Pathology both nationally and internationally, and has more than 140 peer-reviewed publications and abstracts. Dr. Muller has contributed more than 35 chapters to textbooks on head and neck pathology. Currently Dr. Muller is President of the American Academy of Oral and Maxillofacial Pathology and President of the North American Society of Head and Neck Pathology. In 2009 Dr. Muller was elected to the American Board of Oral and Maxillofacial Pathology and currently serves as President. Since 2008 Dr. Muller has been Editor-in-Chief of Head and Neck Pathology.

"CBCT in OMS: Join the Revolution!"

Dr. Tamimi will discuss the role of CBCT imaging in solving diagnostic dilemmas in the multiple conditions encountered by the oral surgeon. She will contrast the pros and cons of CBCT imaging vs. medical imaging and demonstrate the versatility of CBCT imaging in evaluation and diagnosis of conditions of the oral and maxillofacial complex and the tools available in dental DICOM viewing software that enhance visualization and increase accuracy of diagnosis and, subsequently, treatment.

Attendees will:
- Gain insight into what type of imaging is indicated for the clinical conditions encountered, when CBCT will suffice for evaluation and when more advanced imaging is required.
- Understand how to obtain diagnostic and clinically correct cross sectional imaging to arrive at the accurate diagnosis.

Dania Tamimi, BDS, DMSc
Oral Radiologist
Director of Education
Institute of Advanced Maxillofacial Imaging
Orlando, FL

Dr. Tamimi graduated with a dental degree from King Saud University, Riyadh, Saudi Arabia in 1999. She trained at Harvard University, School of Dental Medicine and earned a doctorate of medical science (DMSc) and certificate of fellowship in Oral and Maxillofacial Radiology in 2005. She is board certified by the American Board of Oral and Maxillofacial Radiology (ABOMR). She is a reviewer and an Editorial Board member for Oral Surgery, Oral Pathology, Oral Medicine and Oral Radiology (OOOO). She is the lead author on “ Specialty Imaging: Dental Implants,” a new radiology book that bridges the gap between the clinical implantologist and the radiologist, and a co-author on “Diagnostic Imaging, Oral and Maxillofacial.” She is also Director of Education at the Institute of Advanced Maxillofacial Imaging (IAMI), the educational arm for BeamReaders, Inc. She currently runs her oral radiology private practice in Orlando, FL.
The ACLS Provider Program is designed to teach and test knowledge of resuscitation protocol as outlined by the American Heart Association. This format is designed for the healthcare practitioner who is familiar with the ACLS material and is renewing the ACLS Provider status within a reasonable period of time. There is classroom review and discussion of AHA ACLS resuscitation guidelines and effective team management, but limited review of EKG rhythms and cardiac pharmacology. Advance registration ensures access to all necessary study materials as it is expected that the participant complete a self-assessment and review as necessary to be comfortable with the material prior to attendance.

Cindy White graduated in 1978 with a Diploma in Nursing from Georgia Baptist Hospital School of Nursing, received a BSN in 1981 from Brenau College, and completed the MSN program at Georgia State University in 1983. She has over 35 years experience in all aspects of critical care, serving in clinical, administrative, and consultative roles. For over ten years Cindy functioned as Clinical Nurse Specialist for Critical Care, and during this time, developed empathy for students attempting to master new information and a talent for teaching difficult material in an organized, logical, and practical manner. She has been teaching the American Heart Association ACLS and BLS Renewal Programs since 1989 and has perfected the delivery of a “low stress” but highly educational format.

Dr. Aiken is Associate Professor of Radiology and Imaging Sciences at Emory University. She is the Program Director for the Neuroradiology Fellowship. Dr. Aiken’s major clinical and research interests include head and neck imaging and image-guided procedures in the head and neck. She continues to publish her research and present at various conferences across the country. She is a dedicated educator and lectures nationally. Dr. Aiken also serves on the editorial board of the American Journal of Neuroradiology (AJNR).

The program has been approved for 4.0 credit hours.
ACLS REGISTRATION

To register for the ACLS course please email Cindy White directly at cewhee@comcast.net. Place GSOMS February 18 Course in the subject line. In the body of the email be sure to put contact information. Ms. White will contact you with materials and how to pay for the course. All registrations for ACLS must be handled in this manner.

Class: 2-6pm
Maximum attendees - 30
Cost - $150 (Includes materials and certificate)
