

# 2018 Annual Meeting

---

**Georgia Society of Oral and  
Maxillofacial Surgeons**

---

**Saturday, Feb. 24, 2017  
Druid Hills Golf Club  
Atlanta, GA**

# “Management of Malignant Tumors of the Hard Palate and Upper Alveolar Ridge”

Tumors of the hard palate and upper alveolus are a rare and heterogeneous group of oral cavity malignancies. The appropriate treatment of these patients requires close cooperation between the surgeon and the surgical pathologist to ensure the correct diagnosis prior to initiating therapy. We will review the appropriate surgical anatomy of this region, discuss concepts in management of the primary, message of reconstruction, and the role of neck dissection and adjuvant treatment.

**Guy J. Petruzzelli, MD, PhD, MBA, FACS**  
*Physician-in-Chief & Vice President for Oncology Programs; Curtis and Elizabeth Anderson Cancer Institute and Memorial University Health System; Professor of Surgery Head, Neck & Endocrine Surgery; Savannah, GA*

**Guy J Petruzzelli M.D. PhD FACS** is a board certified otolaryngologist and Professor of Head, Neck and Endocrine Surgery in the Department of Surgery at the Mercer University School of Medicine in Savannah, Georgia. He serves as the Physician-in-Chief of the Curtis and Elizabeth Anderson Cancer Institute and Chairman of the Cancer Committee at Memorial Health. A native of Chicago, Dr. Petruzzelli received M.D. and PhD degrees from the Rush Medical College in Chicago, Illinois. He has served in multiple leadership capacities at the local and national level in academic otolaryngology, head and neck surgery, and skull base organizations. He has co-authored over 100 peer-reviewed publications, contributed 15 book chapters, and was the editor and principal author of the textbook Practical Head and Neck Oncology. Dr. Petruzzelli is been continuously recognized for over 10 years as a Top Doctor for Cancer and Otolaryngology by Castle Connolly Medical Limited. His main clinical areas of interest are salivary gland malignancies, multidisciplinary management of advanced head and neck cancer, and management of tumors of the skull base. Dr. Petruzzelli is extremely honored to participate in this years Winter meeting of the Georgia Society of Oral and Maxillofacial Surgery.

# “Changes in World Health Organization (WHO) Classification of Oral, Head and Neck Pathology”

Patients present to the Oral and Maxillofacial Surgeon with a spectrum of oral, head and neck lesions for diagnosis and management. Most often, biopsy sampling and pathologic diagnosis represents the cornerstone for management. Changes in diagnostic classification, overlapping histologic criteria and/or method of sampling may impact clinical decision making. A primer of the changes within the 4th edition of the World Health Organization’s Head and Neck Pathology book will be provided as well as a review of selected controversial topics that may impact areas of clinical practice.

**Kelly Magliocca, MD**  
*Assistant Professor, Department of Pathology and Laboratory Medicine; Emory University Hospital; Atlanta, GA*

**Kelly Magliocca, MD** is an Assistant Professor within the Department of Pathology and Laboratory Medicine at Emory University Hospital. She earned a DDS degree from the University of Michigan, Ann Arbor, MI and an MPH degree from the University of Wisconsin, Madison, WI. Dr. Magliocca completed residency in Oral and Maxillofacial Pathology at the University of Florida, Gainesville, Florida and joined the Emory University faculty in 2011. Her research interests include gnathic pathology, oral and oropharyngeal carcinoma.

# ACLS/BLS Course

**Doug and Deanna Morris**  
*No Stress Training*  
Fayetteville, GA

The class will be an official American Heart Association certification course for Healthcare Provider BLS and ACLS. Successful completion will be documented with the AHA's new ecard system (the ecard format is now mandated by AHA).

Your class gets right into the certification process. We will start out with skills verification for BLS (CPR), then review the advanced practice protocols and pharmacology (bradycardia, tachycardia, acute coronary syndrome, cardiac arrest, and post-resuscitation care). After a short break, we will practice these protocols in an interactive scenario-based learning environment that invites the opportunity to ask questions and fine-tune your approach to the ACLS patient. The class is completed with the certification exams for ACLS and BLS. Recertification is a 4 hour course.

Deanna Morris is a full-time educator and is responsible for coordinating and instructing the company's class material. She also spent 15 years with the fire department in Henry County, Georgia, serving as the first female operations officer in that department. She has worked in a variety of medical environments, including several years in one of the busiest emergency departments in Georgia. Deanna has participated in hundreds of actual cardiac arrests and resuscitations and brings a practical foundation to the ACLS concepts.

Doug Morris started his medical career in 1982 as an Army combat medic. He left active military duty and joined the fire department in Fayette County in 1986 and works there today as a Battalion Chief. In that 36-year span, he has participated in thousands of cardiac infarctions and arrests. He has worked in busy emergency departments, critical care units, flight medical services, and taught hundreds of American Heart Association classes. Doug has a Master of Public Administration degree and a Bachelor of Applied Science with a minor in Paramedicine.

## Schedule

The program has been approved for 4.0 credit hours.

7:00 am - 8:00 pm	Registration and Breakfast with Exhibitors
8:00 am - 10:00 am	<b><i>"Management of Malignant Tumors of the Hard Palate and Upper Alveolar Ridge"</i></b> <b>Guy Petruzzelli, MD, PhD, MBA, FACS</b>
10:00 am - 10:30 am	Break with Exhibitors
10:30 am - 12:30 pm	<b><i>"Changes in World Health Organization (WHO) Classification of Oral, Head and Neck Pathology"</i></b> <b>Kelly Magliocca, DDS, MPH</b>
12:30 - 2:00 pm	Lunch and Business Session
2:00 - 6:00 pm	<b><i>ACLS and BLS Update Course</i></b>
